

Request for the use of non-organic plant reproductive material

If you plan to use conventional plant reproductive material (seeds, cuttings, rootstock), please submit this application to bio.inspecta. Do not use plant reproductive material before approval. **Sowing before obtaining approval leads to decertification of your crops**

Applicant/operator

- Request for Regulation (EU) 2018/848
- Request for NOP
- Request for BSO
- Request for TR-Reg
- Request for AL Reg

Please read the following instruction carefully

1. **If it is not possible to obtain organic (or in conversion for Reg. (EU) 2018/848) seeds in sufficient quality or quantity in your country, conventional seeds may be used after approval by bio.inspecta. The approval may be granted based on evidence of the non-availability as follows:**
 - Declarations of non-availability of organic/ in conversion plant reproductive material of the desired crop/ variety of at least 3 major suppliers in the country
 - Declarations of non-availability of organic/ in conversion plant reproductive material of the desired crop/ variety of at least 3 major suppliers in the country in time for sowing or planting in situations where the user has ordered the plant reproductive material in reasonable time to allow the preparation and supply
 - Declaration by the state ministry (declarations by local authorities are not acceptable) about unavailability of organic seeds.
2. The approval is valid for one season.
3. *Reg. (EU) 2018/848*: Seedlings of crops with a cultivation cycle completed in one growing season (from the transplantation of the seedling to the first harvest of the product) may not be used in non-organic quality.
4. Plant reproductive material must not be treated with substances not allowed according to the organic standards. Please submit your written request to the seed supplier and respective declaration by the supplier that the plant reproductive material has not been treated together with the label of the seeds (in case of commercial seeds purchased),
5. Plant reproductive material must not be genetically modified. The following seeds need a non-GMO confirmation from the supplier: soya, flax, corn, rapeseed, rice, canola.
Please use the form to be found on the website of bio.inspecta:
www.bio.inspecta.ch, *Vendor declaration non-GMO, 24_2636EN*
6. *NOP*: seeds may be chemically dressed if this is required by law (government measures). If this is the case, attach the relevant legislation.
7. If you plan to treat the plant reproductive material with allowed inputs in your operation, the treatment must not be done before the treating agent is approved. Please use the form to be found on the website of bio.inspecta:
www.bio-inspecta.ch *Request for approval of plant protection products, 24_2510EN*

Request for the use of non-organic seeds and other plant reproductive material

Crop, common and latin name (specify the plant part purchased)	Variety	Hybrid or CMS (for BSO only)	Supplier: address & website	Seeds are not chemically treated (dressed)	Seeds are not genetically modified	Needed quantity (kg or number of plants)	kg/ha	Surface plant to be sown with (ha)	Month of sowing	Reason for non-organic seed		Approval by certifier
										Organic or in conversion seeds are not available in the country	No supplier is able to deliver the seeds before sowing , although it was ordered in time
